

Power Bite Kit

High pH, Heavy-Duty Floor Cleaner

Product Description

Power Bite is a low foaming, heavy-duty liquid floor cleaner formulated to clean facility, warehouse, shop and garage floors. Power Bite was engineered for automatic floor scrubbers to prevent excess foam problems. Power Bite provides extra penetration of the toughest grease and oil laden floors and will not remove or harm common shop floor sealants.

Performance Features

- Penetrates And Removes Heavy Greases, Oils, Lubricants, And Tire Marks
- Will Not Attack Concrete Or Common Floor Sealants
- Super Concentrated Formula For Low Volume Usage And Low Cost
- Packaged As An EZ Kit To Eliminate High Freight Costs and Storage / Handling Requirements
- Engineered Specifically for Automatic Floor Scrubbers

Physical Specifications

Physical State	Liquid
Appearance	Amber
Rinseability	Excellent
pH (Use Dilution)	≈ 13

Equipment Requirements

Power Bite is safe for use with all standard cleaning equipment.

Product Make-Up

Power Bite is packaged as a super-concentrated EZ Kit containing 2 - 2.5 gallon jugs. Mix both jugs together with 25 gallons of water to produce 30 gallons of super-concentrated Power Bite.

Concentration and Application Methods

Shop Floors & Other Hard Surface

MOP & BUCKET: For heavy duty shop floor cleaning, add 10%–20% by volume of Power Bite to a mop bucket filled with HOT clean water. Apply to the surface to be cleaned with mop or brush. Where soil deposits are heavy, let soak for 5 to 15 minutes and brush if possible. Follow with additional mopping or a thorough hose or high- pressure water rinse. For additional soil removal, wet-vacuum dry cleaned area.

Technical Data Sheet

AUTOMATIC FLOOR SCRUBBERS: For heavy duty shop floor & hard surface cleaning, add 10%–20% by volume of Power Bite to the already water filled solution tank. Adding Power Bite to the tank after filling with water will diminish foam production. Hot water temperatures for most plastic-tanked scrubbers should not exceed 140° F. Where soil deposits are heavy, a double pass may be necessary. Rinse with clean water. Operation of equipment should be done in accordance with the equipment manufacturer's instructions.

Companion Products

Break, Wipe Kleen, 147, Total, Dirt Buster

Safety and Handling

Read and understand this products MSDS before handling.

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.

Ordering Information

Power Bite is available as an EZ Kit. Contents include 2 - 2.5 gallon jugs.
