

## 288 Tracer Vivid Tracer Dye

### Product Description

288 Tracer is a highly concentrated, vivid tracer dye used for detecting fuel leaks in diesel engines for the Railroad and Heavy Equipment industries. 288 Tracer provides a vivid, visual means of seeing and detecting the location of fuel leaks in normal lighting. Visibility can be enhanced using a black light.

### Performance Features

- Vivid Tracer Dye Color - Detect Leaks Easily
- Capable of Being Used with Black Light to Enhance Dye Color and Visibility
- Harmless To Engines and Equipment
- Highly Concentrated
- Low Volume Usage Provides Greater Economy

### Physical Specifications

Physical State	Liquid
Appearance (Concentrated)	Red
Appearance (Diluted)	Green
Odor	Mineral Spirits
Rinseability	Excellent
pH	≈ Neutral

### Equipment Requirements

288 Tracer is safe for use with all diesel engines. Do NOT use in gasoline engines.

### Product Make-Up

288 Tracer is a highly concentrated tracer dye. Dilute to specified strength concentrations. To operate dispenser bottles, remove cap from dispenser chamber and gently squeeze sides of main chamber to fill the smaller, 1 fl oz. chamber. Relax pressure on both sides of bottle to draw back excess 288 Tracer.

### Concentration and Application Methods

#### Diesel Engine Fuel Leak Detection

Add 288 Tracer at a ratio of 1 ounce per 10 gallons of diesel fuel. Turn on primer pump and allow 288 Tracer to be circulated throughout fuel system. Shut down engine and inspect entire fuel system for the vivid yellow-green color of 288 Tracer. Visibility is enhanced with the use of a “black light”.

## Technical Data Sheet

### Locomotive Diesel Engine Fuel Leak Detection

For locomotive fuel injector systems, pour 1 fl oz. of 288 Tracer into spin-on fuel filter. Turn on primer pump and allow 288 Tracer to be circulated throughout fuel system. Shut down engine and inspect entire fuel system for the vivid yellow-green color of 288 Tracer. Visibility is enhanced with the use of a "black light".

### **Companion Products**

See Seacole's Railroad and Heavy Equipment product line.

### **Safety and Handling**

Read and understand this products MSDS before handling.

### **Waste Treatment**

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.

### **Ordering Information**

288 Tracer is available in boxes containing 4 - 16 oz. bottles, 15 - 2 oz. bottles, and 96 - 2 oz. bottles.
