

**2025 ANNUAL LETTER OF QUALIFICATION
to
MIL-I-43553, REVISION A
for
50-SERIES Cat-L-Ink LEGEND INKS**

To Whom It May Concern:

This Letter of Qualification applies to all 50-Series products manufactured by MacDermid Enthone.

The undersigned certifies that MacDermid Enthone's 50-Series inks are qualified to the requirements of MIL-I-43553, Revision A as follows:

Type I: All available colors with all available catalysts.

Type II: All available colors with all available catalysts

EXCEPT:

- 50-700R and 50-710R
- All inks cured at room temperature with Catalyst 20/A

Certification test reports are available upon request for a nominal fee.

When ordering inks to this specification the "type" ink must be specified.

Product shelf life is warranted 1080 days from the date of manufacture on all the inks and for 720 days from date of manufacture on all catalysts.
