

Break

Ready-To-Use All Purpose Spray and Wipe Cleaner

Product Description

Break is a premium quality, ready-to-use liquid spray formulated for general cleaning of all hard surfaces. Break is capable of cleaning everything found in the office, factory, shop, vehicle, bathroom, and kitchen. Break's enhanced grease cutting formula is often effective without scrubbing, just spray and wipe clean. Break removes greases, oils, inks, some aerosol paints, and some non-resistant enamel paints. It is harmless to automotive paints, commercially applied equipment paints, and cured latex wall paints in normal use. If in doubt, test in a small area to insure compatibility.
