

## Evolution

### Medium/Heavy-Duty Detergent and Degreaser

#### Product Description

Evolution is an ultra high pH, medium/heavy-duty detergent and degreaser engineered to attack grease, grime, soil or any other unwanted contaminants associated with high or low pressure cleaning applications. Evolution is a super concentrated chemistry capable of cleaning and degreasing industrial / commercial equipment, tankers, trucks, buses, floors, and farm vehicles. Evolution will leave a streak free finish, brighter paint, clearer glass, and shiny wheels. Evolution is also extremely effective for removing tenacious “road film”.

#### Performance Features

- Biodegradable and Environmentally Green
- Quickly Removes Grease, Oils, and Road Film
- Contains NO Harmful Glycol Ethers, Phosphates, HAP's, Or VOC's.
- Super Concentrated Formula For Low Volume Usage And Low Cost

#### Physical Specifications

Physical State	Liquid
Appearance	Yellow / Green
Rinseability	Excellent
% VOC / HAP	0%
pH (Use Dilution)	≈ 13

#### Equipment Requirements

Evolution is safe for use with all standard cleaning equipment.

#### Product Make-Up

Evolution is a concentrated industrial cleaner. Dilute with water to achieve specified strength concentrations.

#### Concentration and Application Methods

##### Vehicle Washing

SPONGE, BRUSH & BUCKET: For typical vehicle, truck, floor or equipment washing, add 5% - 10% by volume of Evolution to a water-filled bucket at a temperature between 40°–160° F. Apply to surface to be cleaned with sponge or brush. Where soil deposits are heavy, let soak for 5–15 minutes and brush if possible. Follow with a thorough hose or high-pressure water rinse.

## Technical Data Sheet

**LOW OR HIGH PRESSURE SPRAYERS:** Apply Evolution at a rate of 8–12 fl. ounces/gallon (ratios of 1:32–1:10). Apply to surface to be cleaned. Where soil deposits are heavy, let soak for 5–15 minutes and brush if possible. Follow with a thorough hose or high-pressure water rinse.

### Two-Step Acid / Alkaline Exterior Wash

**STEP 1:** Apply a low pH, acid presoak at 2 - 4 fl. ounces/gallon of water through a low or high pressure sprayer. Allow to soak, do not rinse.

**STEP 2:** Apply Evolution at 6 - 8 fl. ounces/gallon of water through a low or high pressure sprayer. Allow to soak. High pressure rinse with clean water.

### **Companion Products**

Release, The Solution, Break

### **Safety and Handling**

Read and understand this products MSDS before handling.

### **Waste Treatment**

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.

### **Ordering Information**

Evolution is available in 5 gallon pails, 55 gallon drums, and 275 gallon totes.
