

**2025 ANNUAL LETTER OF QUALIFICATION
to
MIL-I-43553, REVISION A
for
M-SERIES MARKING INKS**

To Whom It May Concern:

This Letter of Qualification applies to all M-Series products manufactured by MacDermid Enthone.

The undersigned certifies that MacDermid Enthone's M-Series inks are qualified to the requirements of MIL-I-43553, Revision A as follows:

Type I: All available colors with all available catalysts.

Type II: All available colors with all available catalysts

EXCEPT:

- M-0-N
- All inks cured at room temperature with Catalyst 20/A

Certification test reports are available upon request for a nominal fee.

When ordering inks to this specification the "type" ink must be specified.

Product shelf life is warranted for 1080 days from the date of manufacture on all inks and for 720 days from date of manufacture on all catalysts.
