

Super Scrub Kit

Heavy-Duty, Non-Phosphate Cleaner With Butyl

Product Description

Super Scrub is an economical liquid cleaner with Butyl formulated for general cleaning of all hard surfaces. Super Scrub is capable of cleaning and degreasing everything found in the office, factory, shop, bathroom, and kitchen. Super Scrub is virtually safe on all hard surfaces and rinses freely leaving a bright, film-free surface.

Performance Features

- Safe On Virtually All Surfaces
- Rinses Freely Leaving A Bright, Film-Free Surface
- Contains No Harmful Polluting Phosphates
- Non-Flammable
- Super Concentrated Formula For Low Volume Usage And Low Cost
- Packaged As An EZ Kit To Eliminate High Freight Costs and Storage / Handling Requirements

Physical Specifications

Physical State	Liquid
Appearance	Clear
Rinseability	Excellent
Foam	High
pH (Use Dilution)	≈ 12 - 12.5

Equipment Requirements

Super Scrub is safe for use with all standard cleaning equipment.

Product Make-Up

Super Scrub is packaged as a super-concentrated EZ Kit containing 2 - 2.5 gallon jugs. Mix both jugs together with 25 gallons of water to produce 30 gallons of super-concentrated Super Scrub.

Concentration and Application Methods

General Maintenance

BRUSH AND BUCKET: Use Super Scrub at a concentration of 3%–20% by volume depending on the nature, make-up and extent of the soils to be removed. The use of HOT water increases performance. Apply to the surface to be cleaned with the desired application method. Follow with a thorough water rinse.

Technical Data Sheet

High/Low Pressure Cleaning

LOW OR HIGH PRESSURE SPRAYERS: Apply Super Scrub at a rate of 4–12 fl .ounces/gallon (ratios of 1:32–1:10). Apply to surface to be cleaned. Where soil deposits are heavy, let soak for 5–15 minutes and brush if possible. Follow with a thorough hose or high-pressure water rinse.

FOAM GENERATORS: Super Scrub will create high quality foam through typical low & high pressure foam generators. Apply to surface to be cleaned. Allow foam to soak and cling to soils. Where soil deposits are heavy, let soak for 5–15 minutes and brush if possible. Follow with a thorough hose or high-pressure water rinse. Chemical set-up and operation of equipment should be done in accordance with the equipment manufacturer's instructions.

Companion Products

Break, Wipe Kleen, AECL, DDC

Safety and Handling

Read and understand this products MSDS before handling.

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.

Ordering Information

Super Scrub is available as an EZ Kit. Contents include 2 - 2.5 gallon jugs.
